

Single Stage Air Hydraulic Axle Jack

- Heavy duty quality air hydraulic axle jack
- Compact design is ideal for tyre industry applications
- 20 ton capacity

Safety overload valve

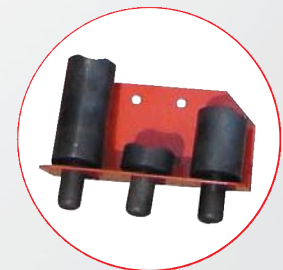

Hydraulic stroke limitation

LCS lowering control system

ARMAAJ20

Changeable headcaps

Features

- Comes with four separate changeable head caps
- Extension screw can be used to adjust height
- Safety overload system to help prevent jack from being used beyond it's rated capacity

Part Number	Capacity (kg)	Stroke	Min Height	Max Height	Width	Overall Length	Extension	Weight (kg)
ARMAAJ20	20,000	115	210	325	325	560	165	52

* Measurements in mm

Note: Air Pressure required: 7 bar / 100psi
Necessary air flow: 270l / min / 9.5cfm
